

Members noticed must notify Committee Chairman Kolb at least 24 hours before the meeting if they will not be able to attend.

AMENDED

**AGENDA FOR THE CITY OF BARABOO
PUBLIC SAFETY COMMITTEE**

Date and Time: Monday, May 23, 2022 – **1:00 P.M.**

Location: **City Services Center – 450 Roundhouse Court, Baraboo, WI**

Members Noticed: Tom Kolb, Phil Wedekind, John Ellington

Others Noticed: Administrator C. Bradley, Mayor R Nelson, Interim Police Chief R. Sinden, Fire Chief K. Stieve, City Engineer T. Pinion, Utility Superintendent W. Peterson, Street Superintendent T. Gilman, BDAS Chief C. Johnson, and Library.

1. Call to Order

- a. Note compliance with the Open Meeting Law.
- b. Roll call.
- c. Approve agenda.
- d. Approve minutes of April 25, 2022 Public Safety Committee meeting.

2. Public Invited To Speak *(Any citizen has the right to speak on any item of business that is on the agenda for this meeting if recognized by the presiding officer.)*

3. Action Items

- a. Review and recommendation regarding Public Fire Protection fees for the 2023 Budget.
- b. Review and recommendation regarding parking restrictions on the 600 block of Ash Street.
- c. **Review and recommend approval of an Agreement for Professional Services Agreement with SHE, Inc to manage the lead service line replacement program for 2022.**
- d. Review and approval of monthly Billing Adjustments/Credits for Sewer and Water Customers for April 2022.

4. Information Items

5. Reports

- a) Utility Superintendent's Report
 - i) Staffing updates
 - ii) Project updates
- b) Street Superintendent's Report
 - i) Staffing updates
 - ii) Project Updates
 - iii) Monthly Report on Public Works Department activities

- c) Interim Police Chief's Report
 - i) Staffing Update
 - ii) Case/ Response Update

- d) Fire Chief's Report
 - i) Monthly Incident Report
 - ii) Fire & EMS Facility Design update
 - iii) Staffing updates

6. Adjournment

Tom Kolb, Chairperson

Agenda Prepared by Kris Denzer
Agenda Posted by Kris Denzer May 20, 2022

PLEASE TAKE NOTICE that any person who has a qualifying disability as defined by the Americans with Disabilities Act, that requires the meeting or materials at the meeting to be in an accessible location or format, should contact the Municipal Clerk (101 South Blvd or phone 355-2700) during regular business hours at least 48 hours before the meeting so that reasonable arrangements can be made to accommodate each request.

FOR INFORMATION ONLY, NOT TO BE PUBLISHED

Minutes of the Public Safety Committee Meeting – April 25, 2022

Members Present: Phil Wedekind, Tom Kolb and Johnson Ellington. **Others Present:** Police Chief Mark Schauf, Capt. Rob Sinden, Fire Chief Kevin Stieve, Wade Peterson, Tony Gilman, Jim O’Neill, Lena Nissley, and Bridget (Media).

Call to Order - Committee Tom Kolb called the meeting to order at 1:00 P.M. at Baraboo City Service Center. Compliance with the Open Meeting Law was noted. It was moved by Wedekind, seconded by Ellington to approve the agenda as posted. Motion carried unanimously. It was moved by Wedekind, seconded by Kolb to approve the minutes of the February 28, 2022 meeting. Motion carried, Ellington abstained.

Public Invited To Speak (*Any citizen has the right to speak on any item of business that is on the agenda for this meeting if recognized by the presiding officer.*) – Jim O’Neill and Lena Nissley spoke in favor of the proposed No-Mow May resolution.

Action Items

- a. Review STH 136 Median Mowing Proposals and recommend award of contract – Peterson said that two proposals were received, Top 2 Bottom, and Sunrise Property Care. It was staff recommendation to award the contract to the low bidder. It was moved by Ellington, seconded by Wedekind to award the contract to Top 2 Bottom. Motion carried unanimously.
- b. Review Noxious Weeds & Rank Growth Proposals and recommend award of contract – Peterson said that only one proposal was received for Noxious Weeds and Rank Growth. It was staff recommendation that the award of the contract be Sunrise Property care. It was moved by Wedekind, seconded by Ellington to award the contract to Sunrise Property Care. Motion carried unanimously.
- c. Consider creating a special charge on the City’s Official Fee Schedule for water that is used for firefighting purposes outside of the City of Baraboo and for fire training events in the City that are hosted by other agencies or organizations – Peterson presented the background to the Committee. He said that staff has periodically discussed and there is a consensus that the Water Utility should be compensated for water used for firefighting purposes outside of the City limits. He said that MATC has hosted a couple of driver operator training closes in the City over the past ear and the participants practice pumping water from the City’s hydrants. It was moved by Wedekind, seconded by Ellington to approve. Motion carried unanimously.
- d. Consider a Resolution officially recognizing “No-Mow May” for the City of Baraboo – Kolb said that this is primarily for homeowners. He said that the Parks Department are doing their job. He said that they would not be able to alter mowing schedules for ball fields, playgrounds, etc. It was moved by Ellington, seconded by Wedekind to forward to Council with a positive recommendation. Schauf said that police department would not be issuing citations for the length of grass if approved; however, as far as rank growth and invasive species, the department would continue to force removal. Motion carried unanimously.
- e. Review and approval of monthly Billing Adjustments/Credits for Sewer and Water Customers for March 2022 – Peterson presented the background to the Committee. It was moved by Ellington, seconded by Wedekind to approve the monthly Billing Adjustments/Credits as presented. Motion carried unanimously.

Information Items

Reports

- a. Utility Superintendent’s Report
 - i. Staffing Updates – No report.
 - ii. Old Business Update – Nothing has happened with West Baraboo agreement in the last month.
 - iii. Reports - Peterson said that the City Administrator has inquired above moving all the Public Fire Protection fees to the Utility bills. He said that presently the City pays \$289,000 of the fee and \$312,000 is paid for by the utility customers. Peterson gave a very detailed presentation regarding a memo that was submitted to the Finance Committee. He stated that theoretically the fire protection would double for residents. He said that at this time, the Administrator is trying to move forward to move that off the City and on to the utility bills. Peterson estimated increases, a residential could range anywhere from \$32 to \$80, for non-residential increases could range from \$79 to \$3944. He said all the City accounts would go up approximately \$13,500. He said that the Utility is the fourth highest taxed entity within the City. Peterson is praying that we do not do this. He said that it has been less than one year that water rates increased. He said that originally he was to understand that the \$289,000 was going to help offset the 2023 Operating for the City, at the last Finance Committee meeting the Administrator said that it would not do that, that they would collect the \$289,000 and use it for capital projects in the future. Peterson said that he is very passionate about this and really hopes the Committee reconsiders and do not pass this on to the utility customers. Peterson said that if this goes through it would be moving the amount from the tax bill to the utility bill, which no one would get credit for. Kolb requested that this be placed on the agenda for the May 23 PSC meeting.
 - iv. Project Updates –Peterson said that the Utility received a Private Lead Service Grant for \$182,500. Peterson said that the auditor was here, Jan and Kelly did a great job putting the data together, and all data looked good so far. Peterson said that rehabilitation of Hwy A water tower scheduling is not coming together very well. He said that U.S. Cellular is not able to get equipment off until mid-June. Televising sanitary sewer lines will be starting in mid-May. Peterson said that the R/R bridge (trussell at 1055 Lake Street). He said that there is a 12” sewer line under the bridge (attached to the structure) and temporarily during the reconstruction, it has to be

removed, and they are adamant that we will never be able to put it back up again. Therefore, Peterson said that he has to find a way to get 60,000 of sewage from one side of the bridge to the other. He said if he goes by their wishes, this would happen in the next 60 days. Peterson said that they have been working with Wisconsin Rural Water Association on creating a plan to protect the areas around our five wells.

b. Street Superintendent's Report

- i. Staffing Updates – Gilman said that as of 3/14, all DPW staff has been operating on a 7:00-3:00 Monday thru Friday schedule. He said that certain tasks upcoming will be moved to a 6:00-4:00 Monday thru Thursday in order to have the opportunity to utilize the machinery on Friday.
- ii. Activity Report – Gilman said that he intends to be done with snow removal for the season; therefore, equipment will be broken down for summer use. Stump removals have been completed, the crew is now grinding, cleaning out, and top soiling the 350+ stumps. He said leaf collection has started. He said that the leaf vac that ordered has been delayed until 4/29. He said that the DPW has been helping the Utilities with the replacement of concrete related to water breaks from the past winter.
- iii. Project Updates – Gilman said that he had nothing new to report regarding the equipment tracking capabilities.
- iv. Informational – Gilman said that in an effort to further reduce costs without a loss of services, we have been discussing methods to improve efficiency. He said that things being looked at is brush collection methods, refuse/recycling collection, and snow plowing/removal. Gilman said that he would be checking costs, etc. to see if it would be advantageous to have the brush site open certain hours. He said that he would be putting together an RFP for refuse and recycle collection and see what prices come back so that a comparison can be made. He said that plow routes would also be evaluated to determine the most efficient means of accomplishing the routes to provide the level of safety needed, in the most effective manner. Gilman then discussed the 600 block of Ash Street parking across from the Fire Department. He said the north half of the block has a 4-hour parking and the south half is no parking anytime due to Fire Department needing space for the vehicle exit and entry of their facility. He said that several times vehicles are parked beyond the 4-hour limit and there is a 24-hour parking lot across the street; therefore, he is recommending that Ash Street parking be prohibited from 2:00 a.m. to 6:00 a.m. Kolb asked this item to be placed on the May agenda.

c. Police Chief's Report

- i. Staffing Updates – No report.
- ii. Case/Response Update – All reports included in the packet. Schauf said that the department is busy. He said that they are seeing a significant increase in iCAC, which is Internet Crimes Against Children. He said that every tip is investigated, which takes a lot of time, but also having luck getting some prosecutions. He said the department is up from last year in traffic enforcement areas. Schauf said that the department is still seeing an influx of mental health cases and is working with Social Services to find some different resolutions, doing that within the best interests of not only the police department, but also the people and the taxpayer's dollars. Schauf said that the department is actively dealing with several absent landlords issues. The special permit application for Memorial Day was then discussed.
- iii. PFC Meeting – Schauf said that at the PFC meeting Rob Sinden was appointed as that acting chief, effective May 7.

d. Fire Chief's Report

- i. Monthly Incident Report – Report was included in Council packet. He said that calls are up about 16% from last year.
- ii. Fire & EMS Facility Design Update – Stieve said that the Consolidation Committee has met once and will be meeting again next week. He said that they are working on the intergovernmental agreements. He said that they met with the projected chosen firm for the Fire/EMS building last Thursday.
- iii. Staffing updates – No update.

AJOURNMENT – It was moved by Wedekind, seconded by Ellington to adjourn at 2:00 p.m. Motion carried.

Respectfully submitted,

Tom Kolb, Chairman

MEMORANDUM

City of Baraboo

Date: May 18, 2022

To: Public Safety Committee

From: Tom Pinion

Re: Background for the May 23rd meeting @ 1:00 pm – City Services Center

ACTION ITEMS:

Items A. According to the minutes from last month's meeting, specifically item (a) (iii) under Reports, the Committee wanted to review this matter again. Wade Peterson will be out of town on Monday so he is not available to attend.

Item B. Likewise, according to the minutes from last month's meeting, specifically item (b)(iv) under Reports, the Committee asked to review this item. Tony included a couple of pages in the packet for some additional background and suggestion(s).

Item C. This is the standing agenda item to review and approve monthly utility billing adjustments. The adjustments for April 2022 are included in the packet.

INFORMATION ITEMS:

Have a good weekend !

See you all on Monday !

600 Block of Ash Street Parking

- Currently the north half of the 600 block of Ash Street has a 4-Hour Parking limit per City of Baraboo Ordinance *7.09 (3)(e)(5) Parking Restrictions 4-Hour Parking*.
- *State Statute 346.52(1)(g)* prohibits stopping/parking across from a Fire Department entrance/exit, which primarily explains why the south half of the block is No Parking Anytime.
- According to the most recent data available from Wisconsin DOT, Ash Street (2017 data) has a daily traffic count of 2600 vehicles and East Street (2021 data) for comparison has a daily traffic count of 2400 vehicles.
- City of Baraboo Ordinance *7.09(4) Parking Restrictions – Nighttime Parking Prohibited on Certain Streets* restricts parking from 2:00am to 6:00am on Broadway from 1st to 5th and on Oak Street from 1st to 5th. 2:00am – 6:00am parking restriction on Ash Street begins at the Baraboo River and ends at 4th Street.
- Based on our plowing/snow removal/street sweeping experiences, recommendation would be that parking is prohibited from 2:00am – 6:00am on Ash Street as it is on both Oak Street and Broadway. That 4-hour window would provide an opportunity for us to safely plow and remove snow in the 600 block, allowing that stretch of Ash to remain as wide and passable as possible. This would pose minimal inconvenience to residents residing in the 600 block with the 24-Hour Municipal Parking Lot at the southwest corner of Ash Street and 5th Street. That lot currently provides 22 public parking stalls (with an additional 19 stalls currently designated for Fire & EMS).

7.09 PARKING RESTRICTIONS.

(4) NIGHTTIME PARKING PROHIBITED ON CERTAIN STREETS. No person shall park, stop or leave standing any vehicle, whether attended or unattended, between the hours of 2:00 A.M. and 6:00 A.M. on the following streets or portions thereof:

- (a) Ash Street, from ~~4th Street~~ 5th Street to the Baraboo River.
- (b) Oak Street, from 1st Street to 5th Street.
- (c) Broadway, from 1st Avenue to 5th Avenue.
- (d) 2nd Street and 2nd Avenue, from Ash Street to Broadway.
- (e) 3rd Street and 3rd Avenue, from Ash Street to Birch Street.
- (f) 4th Street and 4th Avenue, from Ash Street to Broadway.
- (g) 5th Street and 5th Avenue from Ash Street to Broadway.

Re: May 2022 Agenda

Old Business:

West Baraboo Agreements – WB had a question for the DNR about principle forgiveness. DNR just replied to them last week. We will need to add a little language into the agreement to satisfy the DNR. I have a meeting scheduled with our attorney for May 19th.

New Business:

Recommend to council the Professional Services Agreement with XX for the lead service line replacement project.

Reports:

Cleaning/Inspection Birch Reservoir and Commerce Tower – Structures were inspected and cleaned. There are some items that will need to be addressed soon (small and manageable). Both structures will need more significant repairs in the next five years. We will work those into our capital projects.

Rehabilitation of Hwy A water tower – US Cellular is presently removing their equipment off of the tower, hopefully they will be done by 5/31. There was a preconstruction meeting with the engineer, tower inspector, painting contractor, and US Cell on 5/19. We are working out the final bugs on having the Oak Street booster station running continuously during the project. We set up a portable pressure tank at the hospital to have control the system.

Televising Sanitary Sewer lines – Crew started on 5/16 and will be here all week. They will be back a few more times over the summer to complete the project.

R/R bridge (Trussell at 1055 Lake St) – We have made no progress with getting the R/R & DOT to postpone this project. I have started a Request for Proposals for engineering service, however tough to finalize without construction timeline.

Wellhead Protection Plan – The DNR has approved the proposed plan. Wisconsin Rural Water Association will attend the June PSC meeting to go over the plan and the draft changes to our ordinance. Then on to Council.

Wade VAC – I will be off 23-27 May. I want to get a little time off before the Hwy A tower moves into full swing.

CIPP (Cast in place pipe) sewer project - This year we have about 1,000 of sanitary sewer mains that will be slip lined. Crew should be in the last week of May to complete that project.

Public Fire Protection – I hope to bring that to you in June for action.

Jackson Farm/Greenfield Development – The Utility side of the project is coming along great. They plan to be complete with water, sanitary sewer, and storm sewer by June 3rd. The water and sanitary sewer lines have passed inspection.

Vehicle Lease Program – The City is looking into leasing all vehicles under 1 ton size. The Utilities have seven vehicles that could be part of that program. Enterprise gave an estimated overall savings cost. I have asked to breakout Utilities so we can evaluate what the savings might be for us.

Water Crew – Into full swing with annual hydrant and valve maintenance program. We have replaced a few main valves and have a couple more selected. Lead service line replacements are starting up.

Sewer Crew – They are 75% complete with the annual sewer main cleaning project. They still have 50% of the spring biosolids to haul out. We are trying to coordinate with the farmers.

Office of Utility Superintendent
450 Roundhouse Ct, Baraboo, WI 53913

E-Mail: wpeterson@cityofbaraboo.com

To: Public Safety Committee

From: Utility Superintendent (2nd Memo to supplement the original)

Re: May 2022 Agenda (addition)

Old Business:

None

New Business:

Review and recommend approval of an Agreement for Professional Services Agreement with SEH, Inc to manage the lead service line replacement program for 2022.

Review and recommendation regarding Public Fire Protection fees for the 2023 Budget

Reports:

Lead Services – With the \$160,000 we received for the Private Lead Service Replacement Program, an estimated forty (40) services could be updated. Due to the higher number of possible replacements, the Utility plans to complete fifteen (15) services and then hire an engineering firm to create the Notice for Bids, Specifications and Bidding Documents, management of the project so that all items/details required by the DNR are satisfied. The engineering costs are not eligible for grant reimbursement; consequently, the Utility will use excess funds from the County Hwy A Tower Rehabilitation project to cover this expenditure. SHE's \$9,800 fee is based on Time & Expense, not to exceed \$9,800. MSA Professional Services quoted \$11,500. The third firm we invited did not respond.

PFP – You should have the summary from last month. Again, my projection of how the PSC may convert the existing Municipal PFP charge to a direct charge on the utility customer bill could result in an estimated quarterly increase of \$8.05 to \$886.06. This increase represents 14% on the “water” portion of the utility bill. The new PFP rate docket may also jeopardize the Simplified 3% inflationary Rate increase application (SRC) the Utility could apply for in 2023. Normally, Utilities must wait one year after their latest rate change to apply for the simplified inflationary rate increase. Our latest Conventional Rate Case (CRC) effective June 24, 2021, increased the water portion of the utility bill by an average of 49%.

The new Public Fire Protection docket cost is estimated at \$5,000. Jan will be attending the meeting to clarify any questions you may arise.

MAY 2022 STREET DEPARTMENT STATUS REPORT

Staffing/Scheduling Updates

- Staff levels remain the same at 14.
- We are still operating with 7:00 start 5-days per week as our “normal” schedule.
- We elected to utilize a “4-10” workweek towards the tail end of our stump grinder rental period. Doing so allowed us a 48-hour use week with the grinder by assigning other staff to it that Friday. Other tasks will see “4-10’s” throughout the summer when it is advantageous to production and scheduling.

Activity Report

- **Tree/Stump Removals:** Scheduled tree removals are complete. DPW crew ground as many stumps as we could inside the scheduled rental period, which was approximately 275 of the 365 stumps. I spoke with Mike Hardy and have reserved another stump grinder for the last week of June in hopes of completing the remaining stumps.
- **Leaf Collection:** Leaf collection will continue as scheduled through the week of 5/16. Our 2022 budgeted leaf vac was originally scheduled to arrive the first week of April but has been delayed several times and is now expected to arrive the week of 5/23. Like many manufacturers of vehicles and equipment, “chips” have caused the holdup in production.
- **Utility Repairs:** As with previous years, DPW has been helping the Utilities with the replacement of concrete related to water breaks from the past winter. Once concrete has cured, we will also help prepare the break areas for paving by Gasser Construction (winning bidder for paving in 2022). We intend to have all patches prepped and repaved by 5/27.

Project Updates

- **Equipment/Vehicle/Materials Tracking Capabilities:** Nothing new to report. Travis (DPW Mechanic) and I will be meeting with a Preclice representative again to determine a cost more specific to our needs. As a reminder, Preclice manufactures a calibration system that can monitor the amount of sand/salt/brine applied during winter and the miles driven and time idle. They system is also compatible with street sweepers to monitor debris collection; miles swept, and total miles driven. The system is also compatible with refuse/recycling trucks, and when paired with a tablet, allows a pin to be dropped to track locations of potholes, low limbs, carts not set out, cart violations, etc.

Informational items

- **Future Budget:** In an effort to reduce costs without a loss of services, we have been discussing methods to improve efficiency. Several tasks are being evaluated including brush collection methods/disposal practices, refuse/recycling collection, and snow plowing/removal.
 - **Brush Collection:** We continue to offer strictly curbside collection as we have the past year and a half. Cost evaluation to determine a change in collection practices is still occurring. The storm damage pile from the 2021 windstorm has been ground at a cost of \$8,250.
 - **Refuse/Recycling RFP:** Nothing to report. Pending review and hope to have it advertised by end of June.
 - **Snow Plowing/ Removal:** Ongoing evaluation to determine best equipment and practices to reduce costs and materials usage.

Thank you, The DPW Crew
